### SPORTY BURNT RED FABRIC UPHOLSTERY

Stylish and sporty at the same time, the gorgeous red and rugged beehive pattern makes for seating fit for the discerning.

#### 2WD

For good road conditions that don't require the AWD to unleash its fullest, there is the 2WD mode, utilising only the front two wheels, for optimal efficiency.

#### AUTO

The advanced AWD also boasts the power of discretion. Based on road conditions, it distributes power between front and rear automatically, leaving you nothing but pure driving pleasure.

#### 4WD

Be it bumpy roads or slippery paths, rain-soaked trails or no roads at all, the 4WD mode possesses incredible traction, giving you the power to tackle the roughest of terrains.

### ALL WHEEL INDEPENDENT MULTI-LINK SUSPENSION

To further ensure your victory over any terrain, the AWD allows each wheel of the car to follow irregularities or bumps on the road without affecting the wheel on the opposite side of the car. And with the Electronic Torque Control (ETC) which intelligently distributes torque to all wheels, you can now make your way through anything.

### OPTIMAL GEAR RATIO

Rule the roads with great take-off and control in off-road conditions. Tackle gradients better and enjoy extended clutch life with reduced slip and low heat load.
